

# VIDEO COMPUTER SYSTEM

# HAST DU HEUTE SCHON ATARI® GEBAUT?

Das ATARI® Video Computer System wurde 1977 enthüllt und brachte den Nervenkitzel der Spielautomaten in die eigenen vier Wände. Das System wurde weltweit 30 Millionen Mal verkauft und sollte sich zu einer der beliebtesten Spielkonsolen der Geschichte entwickeln. Diese LEGO® Version des ATARI® Video Computer System stellt die legendäre Konsole CX-2600A mit 4 Schaltern aus dem Jahr 1980 dar. Das Modell strotzt vor authentischen Details und verborgenen „Perlen“, die dich in die glückliche Zeit der klassischen Videospiele zurückversetzen. Viel Spaß beim Bauen.

## **GAMING-IKONE**

So unglaublich es auch klingen mag, die Konsole CX-2600A mit vier Schaltern – die beliebteste Version des ATARI® Video Computer System – feiert 2022 bereits ihren 42. Geburtstag. Sie war in jener Zeit im Segment der Spielkonsolen das Maß aller Dinge und dient auch heute noch allen ATARI® Spielkonsolen im Retro-Look als Vorbild.

# HAVE YOU PLAYED ATARI TODAY ?

ATARI 50

# 50 JAHRE SPIELSPASS

ATARI® wurde 1972 gegründet und zählt noch immer zu den klangvollsten Namen in der Gaming-Welt. Mehr als ein halbes Jahrhundert nach der Firmengründung spricht die Marke noch immer viele Fans an, die den Nervenkitzel legendärer Videospieleklassiker lieben. ATARI® wurde in zahllosen TV-Serien, Filmen und in der Popkultur namentlich erwähnt und hat sich zu einem kulturellen Bezugspunkt entwickelt, der weit über die Ursprünge im Segment der Computerspiele hinausreicht.

← Das Modulsystem ließ die Spielerinnen und Spieler in viele verschiedene Spiele eintauchen

# ATARI

**THERE'S NO COMPARING IT WITH ANY OTHER VIDEO GAME.**

Only ATARI makes the games the world wants most. Games that are innovative. Intense. Incredibly involving. And totally original.

The most games, the best games are only from ATARI. Atari makes more video game cartridges than anyone else.

Today ATARI Missile Command and Asteroids are the fastest selling home video games in the country.

# MEHR SPIELE. MEHR SPASS.

Im Gegensatz zu vielen früheren Spielsystemen, in denen nur ein einziges integriertes Spiel verfügbar war, benutzte ATARI® ein Modulsystem, das eine buchstäblich grenzenlose Auswahl an Spielen ermöglichte. Insgesamt wurden 527 Spiele für das ATARI® Video Computer System veröffentlicht, darunter auch so große Hits wie *Asteroids*, *Ms. Pac-Man* und *Pitfall*. Deshalb war das Spielsystem in den späten 70er-Jahren und frühen 80er-Jahren ein absolutes Must-have.

## 1980 **ADVENTURE**

Dieses Spiel diente einer ganzen Generation von Suchabenteuern als Vorbild. Der böse Zauberer hat den Zauberkelch aus deiner Burg gestohlen und du musst deinen tapferen Ritter durch schreckliche Gefahren führen, um den Kelch zurückzuholen!

## 1981 **ASTEROIDS**

Bei diesem Spiel geht es darum, die höchste Punktzahl zu erreichen, indem man Wellen von Asteroiden, Satelliten und UFOs abschießt. Vorsicht: Hohes Suchtpotenzial! Die getroffenen Asteroiden zerbersten in kleinere, schnellere Teile, die in unvorhersehbare Richtungen davonfliegen!

## 1982 **CENTIPEDE**

Benutze den Zauberstab am unteren Bildschirmrand, um möglichst viele Krabbeltiere zu vernichten. Dein Erzfeind ist ein langer, sich windender Tausendfüßler, der in jedes Level eindringt. Um in dem Spiel weiterzukommen, musst du in jedem Level jedes Segment des Tausendfüßlers zerstören!

# DAS BAUEN EINER IKONE

Dieses 2.532-teilige LEGO® Modell ist eine originalgetreue 1:1-Nachbildung des legendären ATARI® Video Computer System mit vier Schaltern (Modell: CX-2600A). Der nachgebildete Joystick kann auf der Rückseite der Konsole angeschlossen werden. Außerdem verfügt das Gerät über vier funktionierende Schalter auf der

Vorderseite. Drei Steckmodule mit bekannten VCS-Spielen liegen ebenfalls bei. Jedes dieser Spiele wird von einer baubaren LEGO Spielszene dargestellt, die das jeweilige Spielerlebnis nachbildet. Die drei Steckmodule kann man in einer coolen Retro-Box im typischen 80er-Jahre-Look aufbewahren!

## VORDERSEITE

## RÜCKSEITE

# DAS ATARI® VIDEO COMPUTER SYSTEM

Zwischen 1977 und 1992 wurden verschiedene Versionen des ATARI® Video Computer System herausgebracht. Die Varianten unterschieden sich vor allem durch das Gewicht, die Anzahl der Schalter und die Optik der Konsole. Die damals so imposante Technologie

reißt heute niemanden mehr vom Hocker, denn die Prozessorgeschwindigkeit ist auf 1,19 MHz begrenzt, der Arbeitsspeicher hat nur eine Gesamtkapazität von 128 Bytes und die Steckmodule verfügen gerade mal über einen Gesamtspeicherplatz von 4 KB.

# ANMERKUNGEN DES DESIGNTEAMS

*Ich bin ein begeisterter Fan klassischer Konsolenspiele und stolzer Besitzer eines originalen ATARI® Video Computer System. Deshalb ist für mich ein Traum in Erfüllung gegangen, als ich an diesem Projekt zur Feier des 50-jährigen Firmenjubiläums von ATARI mitwirken durfte. Nachdem wir uns auf den Maßstab und die Funktionen des Modells geeinigt hatten, ging es vor allem darum, all die kleinen Details genau richtig hinzubekommen: Wir mussten Schalter entwerfen, die sich nach oben und unten umlegen lassen, einen*

*Joystick mit der Optik und Haptik des Originals bauen und die Front der Konsole aus LEGO Steinen mit der klassischen Holzmaserung versehen. Natürlich konnten wir die Spiele selbst nicht nachbilden. Deshalb beschlossen wir, drei baubare Modelle mit Spielszenen zu dem Set hinzuzufügen, um den Fans das Videospieleerlebnis aus den klassischen Spielen näherzubringen.*

LEGO® Designer, Chris McVeigh

Die verborgene Pop-up-Szene beinhaltet viele Details, die allen Fans sofort vertraut sein werden, die in den 80er-Jahren mit Videospiele aufgewachsen sind.

1982 benannte ATARI® das VCS in  
 ATARI® 2600 Video Computer System  
 um (und gab ihm damit eine höhere  
 Modellnummer als dem Original).  
 Sein neues und leistungsstärkeres  
 Nachfolgermodell kam dann als  
 ATARI® 5200 Video Computer System  
 auf den Markt.
